Please note: Footwear design and colorways are subject to change.

Run for all

We believe in championing the run for all. So, we create gear that gives all runners all the things they love. Whether it's performance apparel or shoes engineered with the newest technology, we have what runners need to build their run kit and forge their own path.

This season, new footwear options help runners find their stride, wherever they run. On the road, the updated Adrenaline GTS 23 features lightweight DNA LOFT v2 midsole technology and our innovative, holistic GuideRails® System that supports the body's natural motion path. Together, they create a smooth, supported ride. The Hyperion and Hyperion GTS help runners accelerate with a lightweight, responsive ride that's perfect for fast runs — they join the Hyperion Elite 3 and Hyperion Max to round out our Speed category.

On the trail, we've updated our line to offer performance and protection for traversing smooth single-track or tricky terrain. The technical Cascadia 17 features the new Trail Adapt System, which provides a confident, stable ride with a DNA LOFT v2 midsole that integrates with the articulated rock plate and zonal outsole pods. Meanwhile, trail runners will find a familiar fit in the updated road shoe-inspired Divide 4. The DNA LOFT midsole technology lets runners easily transition from road to trail while providing necessary impact absorption to venture off-road, over tougher terrain. For wet conditions, the Cascadia 17 GTX and Divide 4 GTX now offer a flexible, lightweight GORE-TEX® upper with waterproof protection.

Also fresh this season, additions to our High Point apparel give runners what they need to protect themselves against the elements. Pieces like the High Point Long Sleeve and Short Sleeve have thermoregulating fabric to keep runners cool on warm days and toasty on colder days. And the High Point Waterproof Pant features 14k/14k-rated breathable waterproof protection, perfect for stormy weather. Runners who log miles after dark will appreciate the Run Visible Collection, updated with layering options and protective outerwear made to be seen when the sun's down. Check out the new Run Visible Thermal Tight for warmth that lets runners shine on their own time. The new apparel pairs perfectly with our trusted run bras, featuring high-impact support, and thoughtfully designed accessories, like a variety of distraction-free socks.

No matter where you run or how far you're going, we're dedicated to shining the spotlight on all runners by creating gear as diverse as they are.

No two runners alike

Run Signature helps you pick the right shoes. We start by determining the deviation between the way your body moves while on the run versus off — this result determines your need for support. Then you choose your preferred experience: cushioning to keep things soft, spring-like energy to propel you forward, or featherlight speed so you can push your pace. We use what we learn to match you with your perfect running shoes.

A SHOE FOR EVERY RUN. A SHOE FOR ALL WHO RUN.

A steady dose of Adrenaline

Featuring softness in spades, our Cushion shoes are reliable favorites that runners reach for again and again. And this season, one of our longest-running chart toppers gets an awesome upgrade. The new Adrenaline GTS 23 gives runners the most of what they love. We reconfigured the midsole with lightweight DNA LOFT v2 cushioning for plush softness without heaviness. To deliver a consistently great run, that underfoot comfort meets trusted support technology — our holistic GuideRails® system aligns the body in its natural motion path, providing necessary support on the run. Together, refreshed cushioning and reliable support make this go-to shoe better than ever. So runners get a cushioned, supportive ride and distraction-free comfort.

AURORA-BL

$200 | #00011

Experience gravity-defying softness from the BlueLine Lab.

Softer Landings

Nitrogen-injected DNA LOFT v3 cushioning makes for softer, lighter, and more responsive landings.

Smooth Landing & Takeoff

Smooth transitions mile after mile with the Glide Roll technology, featuring a sculpted heel and toe midsole.

Natural Movement

The unique decoupled midsole allows your heel and forefoot to move independent of each other, so you can move the way your body wants to.

Additional Benefits

- Split heel encourages easy landings and smooth transitions.
- Quilted midfoot sleeve feels soft and secures the foot.
- Soft monomesh upper is breathable and lightweight.

CUSHION
NEUTRAL

DYAD 11

$130 | #0517

Sure-footed stability, now with a modern look.

Soft cushioning

DNA, our proprietary cushioning, adapts to your stride, weight, and speed. Why? So it can help protect you by reducing impact on your joints.

Inherently stable ride

Arch support that we call Dual Arch Pods, together with a wide platform, provide stability without getting in the way of a neutral stride.

Generous fit

Sometimes you need a little extra room to move around in. So if you need a roomier shoe, your search is over.

What's New

- Updated design with modern upper.

Additional Benefit

- The Heel Segmented Crash Pad promotes smooth transitions.

Be a goal-getter

Whether you're chasing down PRs or striding toward top speed, we have what you need to reach your goals faster. This season, we update the Hyperion and Hyperion GTS — designed to help you accelerate faster and deliver a responsive ride. A newly re-engineered midsole uses lightweight nitrogen-infused DNA FLASH technology to promote a fast run. So, you get to your goals in the blink of an eye. Runners can find the speed and support they need in the Hyperion GTS. Our holistic GuideRails® system supports your body's natural motion path on the run, providing necessary support for every stride. The Hyperion and Hyperion GTS join the family of Hyperion speed shoes, including the Hyperion Elite 3, designed for a powerful race-day performance, and the protective Hyperion Max.

SPEED
NEUTRAL

HYPERION MAX

$170 | #0539

Protective and responsive for training at top speed.

Fast, propulsive cushioning

The midsole is configured with nitrogen-infused, lightweight DNA FLASH cushioning that returns energy and adapts to your stride.

Fast transitions

Rapid Roll technology - the unique curving of the heel and toe - propels you forward for effortlessly fast transitions.

More foam, more miles

Substantial midsole foam helps absorb impact on your toughest workouts — so you can take on another hard training session sooner.

Additional Benefits

- Rubber outsole is lightweight yet durable for long-lasting traction, designed with the environment in mind.
- Stretch woven upper and 3D Fit Print provide optimal structure and breathability.

NEW

HYPERION

$150 | #0528

A punchy ride for speedy strides.

Updated fast ride

Re-engineered to promote faster transitions. The midsole — featuring lightweight, nitrogen-infused DNA FLASH foam — and outsole work together to deliver a powerful toe-off and more speed.

Ultralight design

The shoe is the lightest training shoe in our line, allowing for quick transitions on the run.

Breathable upper

Updated with a new warp knit and mesh, the upper is now lighter-weight with better breathability.

What's New

- Updated midsole and outsole accelerate heel-toe transition for a faster ride.
- Enhanced upper is lighter and more breathable than before.
- Redesigned tongue with a partial gusset provides better lockdown and secure fit.

Additional Benefit

- Rubber technology in forefoot and heel are strategically placed to conserve weight and promote fast transitions.

HYPERION ELITE 3

$250 | #05731

The fastest shoe for race day.

Made to race fast

The combination of a broad midsole and our unique carbon-fiber plate keeps you running in your natural motion path — so you can go faster, for longer.

Fast, propulsive cushioning

Our lightweight nitrogen-infused DNA FLASH midsole returns energy to propel you forward with each step.

New enhanced fit

All-new, lightweight QuicKnit upper feels like a second skin, strategically engineered to maintain breathability while keeping the foot comfortably locked-in.

What's New

- QuicKnit engineered upper offers performance breathability and locks the foot over the carbon-fiber plate.
- Semi-integrated tongue stays put while allowing natural foot movement as you run for a distraction-free fit.
- Updated collar and heel area provides ultimate locked-in comfort and eliminates irritation.
- New lace catch in tongue keeps laces in place.
- New laces are 100% recycled polyester, engineered to stay locked in place when tied.

Additional Benefit

- Rapid Roll technology — the curved sculpting of the heel and toe of the midsole — combined with the carbon fiber plate is constructed to propel you forward with effortless speed.

LEVITATE STEALTHFIT 6

$150 | #0528

Max energy return with a sleek fit.

Super springy

DNA AMP v2 foam is 10% lighter, and we packed even more of it into the midsole for added comfort in every stride.

Updated StealthFit

With an updated Fit Knit upper, our StealthFit construction is now more breathable, while still delivering stretch and compression for an adaptable fit that moves with you.

Quick transitions

The arrow-point pattern in the outsole lets your foot move quickly from heel to toe.

What's New

- DNA AMP v2 is 10% lighter while delivering our highest energy return.
- We added 2mm of DNA AMP v2 to create a springy, more comfortable ride.
- New Levitate StealthFit last has more volume for a more inclusive, adaptable fit.
- Wider midfoot for smooth heel-toe transitions.
- Made with recycled materials equivalent to 9 plastic water bottles.

Additional Benefit

- DNA AMP v2 provides our highest energy return.
- The arrow-point pattern in the outsole lets your foot move quickly from heel to toe, enhancing the shoe's spring feel.

ENERGIZE
SUPPORT

LEVITATE GTS 6

$150 | #0528

Our highest energy return meets industry-leading support.

Super springy

DNA AMP v2 foam is 10% lighter, and we packed even more of it into the midsole for added comfort in every stride.

GuideRails® holistic support system

Our innovative technology supports your body in its natural motion path while keeping excess movement in check.

Accommodating fit

Engineered creel mesh material in the upper provides more breathability and ensures a flexible fit that accommodates the foot.

What's New

- DNA AMP v2 is 10% lighter while delivering our highest energy return.
- We added 2mm of DNA AMP v2 to create a springy, more comfortable ride.
- New Levitate StealthFit last has more volume for a more inclusive, adaptable fit.
- Wider midfoot for smooth heel-toe transitions.
- Made with recycled materials equivalent to 7 plastic water bottles.

Additional Benefits

- DNA AMP v2 provides our highest energy return.
- The arrow-point pattern in the outsole lets your foot move quickly from heel to toe, enhancing the shoe's springy feel.

NEUTRAL

REVEL 6

$100 | #0055

All-day performance and versatility with a kick.

Refreshed, versatile upper

Updated Fit Knit construction offers a sleeker look and feel, plus structure and breathability.

Springy, comfortable ride

Reengineered midsole has more of our adaptable DNA for a comfortable feel, and works with the rubber outsole — made from environmentally friendly silica — to deliver a springy, responsive ride.

Quick transitions

The arrow-point pattern in the outsole lets your foot move quickly from heel to toe.

What's New

- We added 2mm of lightweight DNA in the heel for a more comfortable ride.
- Redesigned knit upper is sleeker than before.
- Updated midsole has a versatile look and springy feel.
- Made with recycled materials equivalent to 12 plastic water bottles.

Ultra Trail

Caldera 6

Catamount 2

Mountain Trail

Cascadia 17

Cascadia 17 GTX

Light Trail

Divide 4

Divide 4 GTX

Cascadia 17 & Cascadia 17 GTX

We focused on giving trail runners the confidence they need to explore any trail in the updated Cascadia 17 and Cascadia 17 GTX. Our new Trail Adapt System integrates DNA LOFT v2 cushioning with a middle-loaded ballistic rock shield and zonal outsole pods to create adaptable stability on uneven surfaces. New TrailTack® Rubber is made of 25% recycled content and still provides the heavy-duty traction and grip necessary to traverse slippery ground, rocky crags, or anything else the trail may throw your way. And if it's mud and rain that nature has in store, grab the Cascadia 17 GTX for its breathable, GORE-TEX® waterproof protection.

Divide 4 & Divide 4 GTX

The Divide 4 and Divide 4 GTX provide road-to-trail adaptability thanks to a familiar, road shoe-inspired fit and a design that's built to last over light trails. DNA LOFT midsole technology provides the impact absorption and smooth ride runners need to move from the roads to the trails. A combination of aggressive lugging and our TrailTack Rubber outsole offers traction over trail terrain. Meanwhile, the Divide 4 GTX has lightweight, GORE-TEX® waterproof protection that remains breathable and flexible.

Women's

MOUNTAIN TRAIL

NEW

CASCADIA 17

$140 | #0077

Adaptable stability with trail-ready protection.

Adaptable stability

Our new Trail Adapt System utilizes an integrated midsole, rock plate, and zonal outsole pods to offer enhanced control and a stable ride over any terrain.

Enhanced traction

Biomimetic design draws from the anatomy of mountain goat hooves; the forefoot outsole is split to better grip uneven surfaces while zonal pods enhance control.

Soft cushioning

DNA LOFT v2 midsole technology provides soft cushioning over any terrain to deliver comfort as you explore.

What's New

- Trail Adapt System uses an integrated midsole, rock plate, and outsole system to deliver stability over any terrain.
- TrailTack Rubber technology provides wet-dry traction and is made of 25% recycled content.

Additional Benefits

- PriintDyed upper saves 66% of the energy and 75% of the water required for the traditional dye process (not applicable to GTX version).
- An articulated Ballistic Rock Shield between two layers of DNA LOFT v2 foam provides necessary protection without limiting flexibility needed for smooth transitions.
- TPU toe cap and mudguard provide protection and durability to the upper.
- Cascadia 17 made with recycled materials equivalent to 10 plastic water bottles (Cascadia 17 GTX materials equivalent to 11 bottles).

ULTRA TRAIL

CALDERA 6

$150 | #0528

Our softest cushioning for ultra comfort on the trail.

Supreme softness

Now featuring nitrogen-infused DNA LOFT v3, our super soft cushioning optimized to be lightweight, responsive, and durable with plush comfort.

Stable ride

The foot sits securely within raised midsole foam walls while the widened base and split-heel outsole work to stabilize your landings and carry you smoothly over uneven terrain.

Comfortably secure fit

An internal midfoot saddle holds the foot securely without sacrificing breathability, thanks to a new, lightweight and quick-drying air mesh upper.

What's New

- Updated midsole features nitrogen-infused DNA LOFT v3, super soft cushioning.
- Redesigned midsole and outsole feature raised side walls and a widened platform for a stable ride.
- All-new, quick-drying air-mesh upper provides enhanced breathability.

Additional Benefits

- TrailTack rubber outsole offers excellent traction on both wet and dry surfaces.
- TPU toe cap enhances protection on the trail.
- 3D Fit Print over the upper provides structure and durability without compromising breathability.
- Lace keeper stows laces out of the way.
- Front and back attachment points make it easy to secure gaiters.
- Made with recycled materials equivalent to 7 plastic water bottles.

ULTRA TRAIL

CATAMOUNT 2

$170 | #0539

Light and responsive to help you run faster and farther on the trails.

Uphill propulsion

All-new SkyVault propulsion plate provides responsive drive you need to summit peaks and push the pace.

Light & responsive cushioning

DNA FLASH midsole crafted from nitrogen-infused compound delivers the perfect blend of responsiveness and adaptive cushioning for a fast ride.

TrailTack grip

TrailTack rubber outsole offers traction on both wet and dry surfaces.

What's New

- New SkyVault propulsion plate is engineered to help you run uphill efficiently while doubling as a rock shield.
- Dual-sided air mesh features an abrasion-resistant and hydrophobic TPEE outer layer and an inner layer made from 100% recycled polyester fibers that dries fast and provides a soft next-to-skin feel.
- Made with recycled materials equivalent to 7 plastic water bottles.

Additional Benefits

- Strong yet flexible internal reinforcements around the midfoot, with a half bootie tongue construction, keep your foot locked in.
- A TPU toecap and mud guard protect against wet dirt, rocks, and debris for comfort and durability.
- Drainage slits allow water to leave the shoe quickly so your feet dry faster.

LIGHT TRAIL

NEW

DIVIDE 4

$100 | #0055

A familiar fit with features made to tackle light trail terrain.

Transition from road to trail

DNA LOFT cushioning provides a soft, smooth ride from the roads to the trails while high surface area lugs provide necessary grip on offroad surfaces.

Versatile upper

The road-shoe inspired fit features updated mesh that enhances breathability while a TPU mudguard offers protection from the trails.

Reliable traction

TrailTack Rubber outsole technology offers traction on both wet and dry surfaces.

Additional Benefits

- Drainage slits in side of shoe.
- Creel sandwich air mesh is lightweight, breathable, and quick-drying.
- Tongue gusset provides secure and comfortable fit around midfoot.
- Toe cap offers light protection against gravel, sticks, and other debris.
- Made with recycled materials equivalent to 7 plastic water bottles.

Do your feet a favor

Whether we're running around the block or running a race, our feet always support our success. And when you add in walking, standing, and impromptu dancing, it's clear our daily grind demands a lot. That's why our footwear line is full of shoes that work hard — so feet can take it easy.

Through extensive biomechanical testing and plenty of interviews with runners, walkers, movers, shakers, and workers on their feet all day, we crafted these shoes to serve real people. With an array of options — including specialized widths, slip resistant soles, added stability, extra room for orthotics, and PDAC qualification for Medicare — the Solutions category is designed to offer feet some much-needed care.

Check out the grid to see what's available.

ADDICTION WALKER 2

$130 | #0517

Slip resistant. Supportive. Soon to be your favorite.

Maximum support

Our Extended Progressive Diagonal Rollbar (PDRB) is a support system for your entire body. It strategically positions arch support to guide and keep your body in its natural path of motion.

All-day comfort

DNA, our proprietary cushioning, adapts to your stride, weight and speed. Why? So it can help protect you by reducing impact on your joints.

Slip resistant

What stands between you and a lack of traction? An innovative outsole that's been certified (SATRA TM144:2011) for slip resistance.

What's New

- The full-grain leather upper is both comfortable and durable.

- Quarter and crew length options provide protection and comfort for the trail without excess fabric or coverage
- Sock name and size stitched in for easy reference

Long-lasting comfort over the toughest trails.

High durability
Anti-abrasion yarn in high-friction areas makes the sock durable for long-lasting wear.

Protective construction
Reinforcement in the toe box protects sensitive areas for long-lasting comfort.

Sweat-wicking
Merino wool blend wicks sweat and controls odor while mesh venting provides airflow.

CARBONITE SOCK

280431 | $18 | #0090

Sizes
S–XL

Intro date
07/01/2022

Fabric

- DriLayer® 96% Nylon/4% Spandex

More details

- DriLayer® yarn wicks sweat
- 3M™ Scotchlite™ Carbon Black Stretch reflectivity detail
- Mesh zones for ventilation
- Targeted arch compression
- Full underfoot cushioning
- Seamless toe
- Mini-crew height

Breathable performance designed to shine after dark.

Visible in the Dark
3M™ Scotchlite™ Carbon Black Stretch reflectivity detail helps make you seen by drivers on the road.

Extended Cushioning
Full underfoot cushioning for comfort with each step.

Sweat-wicking
DriLayer® yarn wicks sweat.

TECH TALK Specialized, high-tech features that set our shoes apart.

midsole

DYNAMIC CUSHIONING

DNA
A responsive midsole technology that cushions each step and adapts to a runner's unique stride, weight, and speed.

DNA AMP v2
Our most energizing midsole compound is now 10% lighter. DNA AMP v2 offers a responsive ride and our highest energy return thanks to its polyurethane foam, cased in a thermoplastic polyurethane skin. Like all DNA compounds, this technology adapts to each runner's unique weight and stride.

DNA FLASH
A nitrogen-infused midsole cushioning compound that provides ultralight softness with plenty of energy return to power your run.

DNA LOFT
A finely calibrated mix of Brooks DNA foam, air, and rubber, DNA LOFT cushioning is our softest, engineered to provide softness underfoot without losing responsiveness or durability.

DNA LOFT v2
Lighter than the original but just as soft, DNA LOFT v2 has a unique balance of rubber, air, and a less dense, lighter foam for a plush feel that won't bottom out or weigh you down.

DNA LOFT v3
Experience a whole new world of softness with nitrogen-infused DNA LOFT v3 midsole cushioning, our most amplified soft cushion compound to-date – we've fine tuned the nitrogen infusion process in DNA LOFT v3 to deliver optimized premium softness, enhanced responsiveness, and lighter weight, all without sacrificing durability.

FLEXIBILITY & ALIGNMENT

Omega Flex Grooves
An Omega-shaped innovation that enhances the flexibility of the midsole for an effortless forefoot ride without compromising the integrity of the midsole cushioning.

Propulsion Plate
A carbon fiber propulsion plate that is engineered to push runners forward with every stride. It works with ultralight cushioning for optimal efficiency on race day.

SkyVault Propulsion Plate
Our new Pebax plate is engineered to aid in uphill running. When a runner steps on the plate and pushes off in stride, the plate bends and snaps back into place, delivering propulsion and assistance as the runner climbs. And the unique shape provides flexibility on technical terrain, as well as stability and comfort on downhills.

Release Grooves
Strategically placed Release Grooves in the forefoot and heel work with the full shoe, helping adapt to any terrain.

Segmented Crash Pad
Shaped like a caterpillar, a system of fully integrated shock absorbers that accommodates any foot landing to maximize efficiency, provide cushion, and create smooth heel-to-toe transitions.

Rapid Roll
The curved sculpting of the heel and toe of the midsole, combined with a carbon fiber plate, is constructed to propel you forward with effortless speed.

Trail Adapt System
Strategic configuration of zonal pods on the outsole, designed for traction and stability on uneven terrain.

SUPPORT

Extended Progressive Diagonal Rollbar
An extended version of our Progressive Diagonal Rollbar, which is a tri-density post at the medial arch that is biomechanically engineered to allow for progressive support and create smoother transitions from the midstance phase to the propulsion phase.

GuideRails®
An innovative, holistic, on-demand support technology that guides the body — hips, knees, and joints — into its natural motion path of least resistance.

outsole

Ballistic Rock Shield
A toughened, thermoplastic EVA sheath between the outsole and midsole that protects the forefoot by spreading out point loads from sharp objects.

Dual Stability Arch Pods
A passive support system utilized in the Dyad to enhance inherent stability without the use of a post.

IDEAL Pressure Zones
An outsole technology that evenly disperses impact away from the body for a comfortable and effortless ride.

Slip-Resistant Outsole (SATRA TM144:2011)
Slip resistance on both wet and dry surfaces.

TrailTack Rubber
A sticky rubber compound that provides outstanding uphill and downhill traction, even on wet surfaces.

TrailTack Green
The next generation of TrailTack Rubber, TrailTack Green includes recycled content, and requires less material to build than the original. So it's easier on the environment while still delivering excellent wet-dry traction on the run.

upper

3D Fit Print
An advanced screen-printing process to apply strategic stretch and structure for a seamless, impeccable fit.

Engineered Mesh
Custom-designed and strategically woven or knit mesh that provides optimal structure and breathability.

Fit Knit
Our premium knit construction specifically designed to move and expand seamlessly with your foot for a sock-like fit and optimal performance.

GORE-TEX® Invisible Fit
An updated lightweight membrane is bonded directly to the upper for a lighter, more flexible fit, offering breathable, waterproof protection on the run.

OrthoLite® Sockliner
Contoured insert designed to fill any negative space under the foot.

Stretch Woven
A pliable upper construction that wraps the foot in a sock-like fit.

Ultimate Sockliner
A PU insert with an OrthoLite® memory foam middle layer and convoluted egg-crate surface that provides substantial cushioning, breathability, and conformability.

Have you tried using FastTrack on your mobile or tablet devices?

Using FastTrack on the “go” is easy. In addition to our mobile app — available in your device’s app store — the full web view also scales to screen on your desktop, laptop, tablet, and mobile devices.

With FastTrack you can:

- View available inventory
- Place at once and future orders
- View order status and track shipments
- See who placed orders and access open baskets
- Email suggested baskets
- View and order from Brooks spotlight lists
- Scan barcodes to access product
- Sales reps can review and approve future orders

*For optimal performance, use Chrome as your web browser

FastTrack
BROOKS

APPENDIX

LOCALLY

Did you know runners are 4x more likely to do their research on brooksrunning.com and buy in a physical store than they are to finish their purchase online?

Locally.com allows Brooks to tell online shoppers when you have our products available in store. We have found that retailers who share their inventory with Locally.com benefit from the web traffic on brooksrunning.com.

Signing up for Locally can:

Introduce runners to your store
Locally provides additional exposure to runners new to town or who haven't been into your store yet. Enjoy a customizable notification schedule that lets you receive text and/or email alerts during business hours. You also have the option to direct message with the shopper at any time during the ordering process. Retailers who share inventory with Brooks through our dealer locator on Locally get five times more views than those that don't.

Drive traffic and sales
On Locally, customers can choose between these options: Reserve Online/Pickup In Store, Buy Online/Pickup In Store/Same Day Delivery. Sales from these transactions on Locally have increased 4–6X throughout 2020 as customer shopping behavior has evolved. This expanded toolkit gives runners more opportunities than ever to shop your store. You can also accept orders for in-store pickup directly from brooksrunning.com, Facebook, your own site, and Locally.com.

Help us highlight your store
When our website inventory runs low, we direct runners to Locally to search retail inventory in their hometowns — at stores like yours! And Brooks can layer Locally's store locator tool into marketing campaigns to drive attendance to store events.

New
Locally now offers Same Day Delivery. To provide support for new shopping behaviors, Locally now enables all participating retailers Same Day Delivery with no additional cost. Same Day Delivery is a great addition to in-store or curbside pickup. Available in Postmates market (US only for now), standard 3.5% transaction fee plus carrier delivery charges still apply.

Have any questions or just want to get started? Contact your Brooks rep, or head straight to www.locally.com/go/launch.
